Topics

- Graph concepts
- Vertices
- Edges
- Directed graphs
- Undirected graphs
- Weighted graphs
- Breadth-First Search (BFS)
- Depth-First Search (DFS)

MIS Applications

- Social networks
- Supply chains
- Transportation systems
- Organizational networks
- Business relationships
- Information networks

Laboratory

Supply Chain Network

Students model:

```
Supplier A
     |
   Warehouse
   /       \
Store A   Store B
```

and implement BFS/DFS traversal.
