Topics

- Recursion
- Base case
- Recursive case
- Linear Search
- Binary Search
- Comparison of searching algorithms

Complexity

```
Linear Search   → O(n)
Binary Search   → O(log n)
```

Laboratory

Customer ID Search System

Students compare Linear Search and Binary Search using datasets of different sizes.

Assessment

Midterm Examination

The midterm may include:

- Conceptual questions
- Algorithm analysis
- Python coding
- Data structure selection
- Short business scenarios
