Topics

- Importance of sorting
- Bubble Sort
- Selection Sort
- Insertion Sort
- Algorithm comparison

Laboratory

Students sort business data such as:

- Sales
- Product prices
- Employee salaries
- Customer scores

Example:

```
8,500
9,200
12,000
15,400
18,100
```

MIS Question

> Which sorting algorithm would you choose for a sales reporting system, and why?
